### **COMMUNITY ENGAGEMENT**

*BIPOC Creative Collective, Co-Founder*

This collective was created in 2022 with the intention to advocate for a sense of community for racialised students at Emily Carr University. Since 2024, this collective is being facilitated by current ECU students. At the time of its founding, the collective provided a weekly safe space for BIPOC students to connect with one another through game nights, movie nights, co-working nights, and providing a low sensory space. Since then, current students have organised fundraisers and community outreach programming as well.
